

TAUCUT COMPACT

Laser Cutting

Taucut Compact is the new compact laser cutting machine specifically designed for the goldsmith and fashion accessories industry.

It represents the ideal solution for cutting highly reflective precious metals, such as gold (9K-24K), silver (925-Sterling Silver), brass and other metals with clean and bright edges, ensuring precise results that optimize material usage.

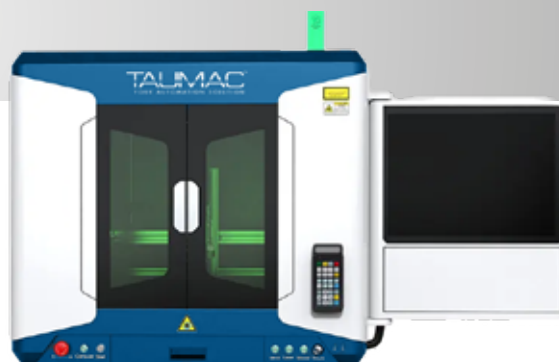

REMOTE CONTROL

Operators can use the device remotely to control the movement of the cutting head.

APPLICATIONS

- Perfect for cutting high reflective metals
- Enclosed protective cover for a safer cutting
- Thin cutting line without burrs
- Low material loss
- Fast cutting speed and high efficiency
